

Monroe County Water Quality Coordinating Committee Vision and Mission
January 6, 2000

Vision:

Monroe County's surface and groundwater resources are protected and continuously improved to maximize their ecological value for sustainable consumption, recreation, and natural habitat.

Mission:

The Monroe County Water Quality Coordinating Committee is a group representing municipalities, agencies, and organizations that conducts planning, education, regulation, or operations that affect water quality. The Committee identifies water quality problems, prioritizes needed actions, seeks funding for projects, coordinates programming, and recommends policy to protect and improve our water resources in Monroe County and its watersheds.
